

# Magic Party Tips

*Are you ready to host an incredible magical birthday party with Puppet Tales? Here are a few tips to help make that party an amazing experience:*

1. Schedule Magic Dave to perform at least 30 minutes after the party has started (this way no one misses out on the show).
2. It usually takes Magic Dave about 10-15 minutes to set up for his show. If you can try to schedule an activity for the children to do in a different room while he sets up that will make the set up go much quicker and ensure the show can start on time.
3. Have the children seated in an area with plenty of comfortable floor space and where Magic Dave can have his back to a wall (preferably a wall without a mirror behind it).
4. If you are going to serve snacks and drinks before the show, don't allow the children to eat or drink those snacks during the show (trust us, it will save your carpet from a lot of stains).
5. Encourage and invite adults attending the party to come and sit with the children during the show. Immediately following the show is a great time to serve cake and open presents (while Magic Dave packs up).
6. Let Magic Dave know if you have any questions or concerns regarding your magical birthday party. Our goal is to make your event a truly wonderful experience!
